Contact: This icon indicates that contact information, phone or email, will follow. For a copy of one of the packet sections, call (206) **684-5044**.

Document Reference: This icon tells you when to refer to another document for further information.

Street Improvement Permit Process Information Packet

ABOUT THIS PACKET:

This packet has three sections, each of which can function independently or together, but each focuses on a different part of the development and permit process. Brief explanations of each section are below. See the box at left for contact information.

- The **Applicant/Developer Packet** is one of three informational packets designed to help you understand and to meet the requirements that each applicant/developer must meet in the City of Seattle Department of Transportation Street Improvement permitting process.
- The **Engineer/Designer Packet** explains the steps required of engineers/designers in the City of Seattle Department of Transportation Street Improvement permitting process.
- The **Contractor Packet** explains the steps required of contractors in the City of Seattle Department of Transportation Street Improvement permitting process.

Each document within the packets has its own page numbering system, seen in the footer of the second page in each document. In the Applicant/Developer Packet, for example, Publication 461, is numbered: Publication 461 page 1 of 2, etc.

Applicant/Developer Packet

Contact: For a copy of one of the packet sections, call Seattle Department of Transportation at (206) 684-5044.

This Applicant/Developer Packet is one of three informational packets designed to help you understand and meet the requirements of the Seattle Department of Transportation Department's Street Improvement permitting process. The other two packets, the Engineer/Designer Packet and the Contractor Packet, are under separate cover.
